Registration System for Foreign Patients

01

Introduction to the Registration System for Foreign Patients

The Registration System for Foreign Patients is designed to protect the rights and interests of foreign patients and enhance convenience in utilizing domestic medical services. This system ensures that foreign patients receive safe and high-quality medical services. Medical institutions and Facilitators seeking to attract foreign patients can register if they meet specific requirements, and the system is managed and supervised by the 17 provinces and metropolitan cities. Only institutions registered under this system are authorized to engage in Global Healthcare Business (Inbound) activities, thereby providing foreign patients with reliable and trustworthy medical services.

Requirements for Medical Institution and Facilitator

- At least one specialist per medical department intended for foreign patients
- Enrollment in Medical Malpractice Liability Insurance or Medical Liability Mutual Aid Association

- Liability insurance covering damages to foreign patients
- Capital of at least 100 million KRW
- Establishment of a domestic office

02

Obligations of Registered Institutions

Registered institutions that have completed the registration process must display the registration certificate within their premises where it is visible to everyone. They are also obligated to provide information related to the protection of foreign patients' rights. In particular, registered medical institutions must provide the following information in foreign languages and make it available in printed form.

1

Diagnosis, treatment methods, and potential side effects for foreign patients

2

Medical service agreement and estimated treatment costs in the format specified by the Minister of Health and Welfare

3

Dispute resolution procedures in case of medical accidents

Check for the Registration Symbol

Registered Institutions are authorized to use this symbol. You can easily verify the registration status by checking the symbol on the institution's website or at the location you plan to visit.

Medical Korea Website

You can visit the Medical Korea website (www.medicalkorea.or.kr) to check the list of registered institutions, available languages for interpretation, and information on major medical departments.

Brand Platform

Brand Purpose	To help individuals who have lost the ability to enjoy their daily lives due to illness regain their happiness.
Brand Vision	A globally advanced medical nation where top-tier medical technology and respect for life coexist.
Brand Essence	Restoration of daily life (Begin Again).
Brand Name, Slogan	Medical Korea, Where your days begin again
Brand Values	<div><div> Passion for Perfect Care</div><div> Love for Humanity</div><div> Understanding the Patient</div><div> Hope for Daily Happiness</div></div>

Design Concept

Warm Heart & Cold Brain

The design represents the journey of foreign patients visiting Korea for medical services, receiving top-quality treatment, and returning to their daily lives, symbolized through the use of a cross (+). This conveys the warmth, kindness, and reliability of Korea's advanced medical technology and services.

Logotype

Developed in the shape of a cross to represent health-care services, it signifies the smooth process through which patients are connected to the best medical services.

Symbol

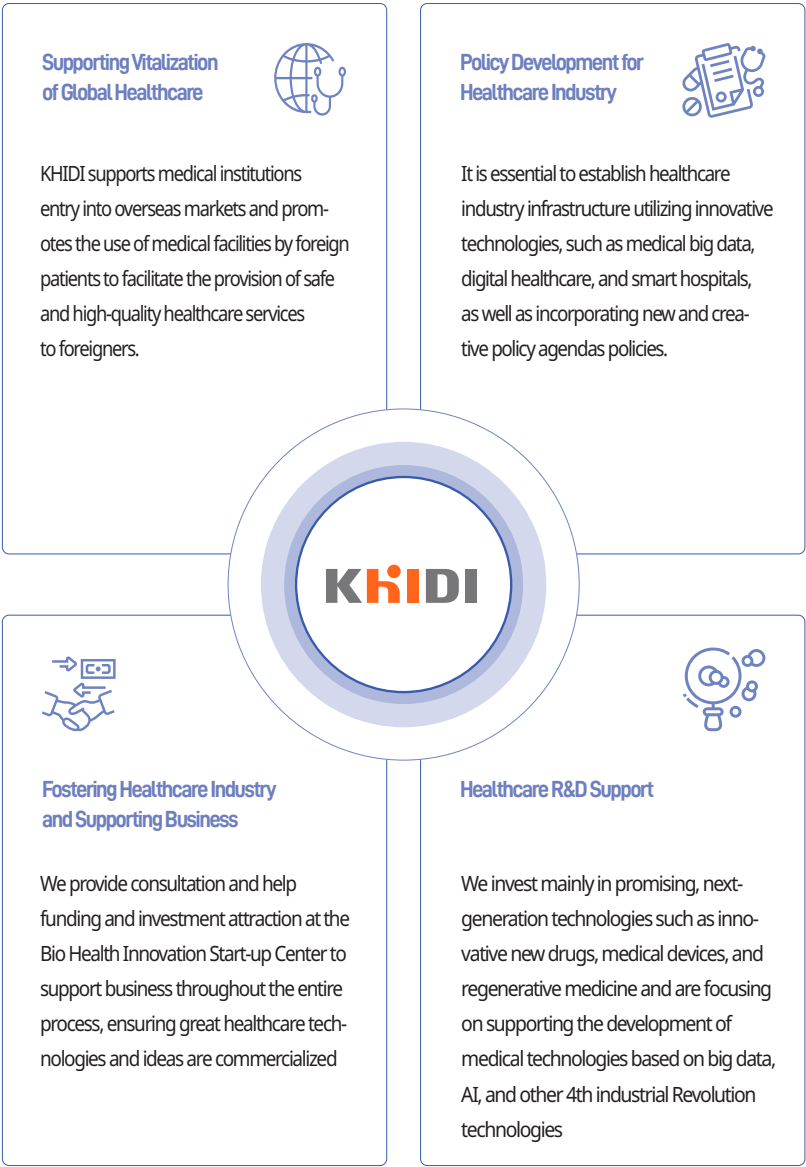

The typography, which combines straight lines and curves, represents the fusion of Korea's advanced medical expertise and warm services, symbolizing the balance between reason and emotion.

Color

The combination of warm and cool colors in balance metaphorically symbolizes Korea's Taeguk (flag), representing the harmony between warm and friendly service spirit and precise, scientific medical technology.

Introduction to the Korea Healthcare Industry Development Institute

As a government-affiliated institution under the Ministry of Health and Welfare of Korea, KHIDI performs professional and systematic support to create social values and the future of the healthcare industry.
